

Ultima[®] Longspan economical and strong

Ultima Longspan is a strong and durable shelving system that is smart and clean in appearance, making it ideal for a wide variety of applications. It is fast and easy to assemble or reconfigure. The 50mm upright is designed to reduce overall rack length and maximise storage capacity. The uprights also provide excellent strength, rigidity and twist resistance due to their smart design, deep flange and minimal slot sizes. Reliable, bolted, braced frames also provide safety and strength.

Ideal for

- Single tier and high rise
- Compact mobile storage solution
- Large, bulky and heavy items
- Long, odd shaped or awkward items
- Carton live storage applications
